

SONDE SS20 & SS30

Powerful 512 Hz remote transmitters

When paired with the SXR Precision Locator, this battery powered sonde allows accurate locations in depths over 30 feet. Insert into a Sonde Carrier for a secure attachment to your sewer cable, jetter or duct rodder.

Features

512 Hz Frequency: for locating cast-iron and non-metallic pipes

Slim-bullet design: compact for easy navigation down 2" p-traps

Durable: made with non-corrosive materials

Easy battery access: twist cap off with a coin or philips screwdriver

Made in U.S.A.

Lifetime Warranty on Materials and Workmanship

SS20

The SS20 is powered by a single AAA battery. Transmits a signal up to 20 feet through non-metallic pipe.

SS30

The SS30 is powered by a single 3.7 volt lithium ion rechargeable battery. Transmits a signal up to 33 feet through non-metallic pipe.
